UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

January 26, 1994

CHAIRMAN

Dr. B. John Garrick  
President, PLG, Inc.  
4590 MacArthur Blvd.  
Suite 400  
Newport Beach, California 92660-2027

Dear Dr. Garrick:

On behalf of the Commission, I am pleased to offer you an appointment to a two-year term on the Advisory Committee on Nuclear Waste (ACNW). As you know, the ACNW advises the Commission on nuclear waste disposal facilities, 10 CFR Parts 60 and 61, and other applicable regulations and legislative mandates related to nuclear waste disposal, and such other duties as the Commission may request.

The Commission offers this appointment based on the understanding that you will not advise the ACNW on any particular matter that would directly and predictably affect the financial interests of the Failure Group, PLG, or the clients of either organization. The Commission also understands that you may seek an exemption which would permit you to retain securities issued by the G.E. Corporation, SCE Corporation, and Fluor Corporation. Until either an exemption is granted or you have divested yourself of these securities, you will not advise the Commission on any matters affecting these entities. Finally, the Commission understands that you have financial interests in a number of companies which hold NRC material licenses and that you will be prohibited from participating in ACNW matters which would have a direct and predictable effect upon any of these entities.

Although we will make an effort to minimize our demands on your time, we recognize that service on the Committee will entail some sacrifices on your part. We appreciate your willingness to give your time and energy to an effort that is important to the future progress of the Nation's nuclear regulatory program.

Sincerely,

*Ivan Selin*
