MEMO

To: Rosetta Virgilio Date: 28 January 1994
Dept: U.S. Nuclear Regulatory Commission

From: Marie Stoeckel, MPH, CIH, Chief *ms*
Dept: R.I. Department of Health
Office of Occupational & Radiological Health

Subject: Review of License Files for Records Related to Research
Involving Human Subjects

Transmitted by fax to (301) 504-3502

This memo is written to confirm my telephone message of 27 January 1994.

My office, which includes the NRC Agreement State program, has not identified any licensees likely to have conducted medical or scientific radiation effects research on humans prior to the dissolution of the AEC in 1975.

Please be aware that Rhode Island did not become an Agreement State until December 1979. Therefore, we have minimal license file information prior to that time. However, Rhode Island being a small state with one relatively young medical school and a limited number of research facilities, we are not aware of any hearsay information regarding research on human subjects.

Please call me at 401-277-2438 if you have additional questions.
