FEB 17 1994

Mr. John Rooney, Director
Office of Export Controls and
International Safeguards
Office of Intelligence and
National Security
IS-40
U.S. Department of Energy
Washington, D.C. 20585

Dear Mr. Rooney:

Enclosed is an application for an export license (XSNM02798), recently received by the Nuclear Regulatory Commission, for the export of low-enriched uranium, as UF₆ "heels" in cylinders, being returned to various companies in EURATOM. Assurances from EURATOM are required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the applicant has requested expedited handling of the request as the first shipment is scheduled for March 15, 1994.

Please also note that a portion of the material could possibly contain Australian and Canadian material.

Sincerely,

Ronald D. Hauber, Assistant Director
for Exports, Security, and Safety Cooperation
Office of International Programs

Enclosure:
Appl. dtd. 2/9/94
(XSNM02798 - EURATOM)
