Gentlemen:

SUBJECT: MCGUIRE NUCLEAR STATION REQUALIFICATION EXAMINATION REPORT
NO. 50-369/OL-90-03

The NRC administered examinations during the weeks of December 10 and 21, 1990, to employees of your company who currently hold licenses to operate the McGuire Nuclear Station. At the conclusion of the examination, preliminary findings were discussed with those members of your staff identified in the enclosed report.

A Requalification Program Evaluation is included as Enclosure 3. This Evaluation Report finds the McGuire Nuclear Station requalification program remains satisfactory based upon performance of the licensed operators on this examination. Included in this evaluation are any identified operator weaknesses or program areas needing improvement. These concerns have been discussed with your training staff. A Simulation Facility Fidelity Report is provided in this report as Enclosure 4.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

(Original signed by L. L. Lawyer for)

Thomas A. Pebbles, Chief
Operations Branch
Division of Reactor Safety
