

ENCLOSURE 1

NOTICE OF VIOLATION

Carolina Power and Light Company
Brunswick 1 and 2

Docket Nos. 50-325 and 50-324
License Nos. DPR-71 and DPR-62

During the Nuclear Regulatory Commission (NRC) inspection conducted on December 1 - 31, 1990, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1990), the violation is listed below:

Technical Specification 6.8.1.a requires that written procedures be established and implemented for applicable procedures recommended in Appendix A of Regulatory Guide 1.33, November 1972.

Regulatory Guide 1.33, November 1972, Appendix A, Section D, requires that procedures be established for startup, operation, and shutdown of safety-related BWR systems.

Operating Instruction, OI-01, Operating Principles and Philosophy, Revision 34, Section 4.1, requires that all plant operation evolutions are to be conducted in accordance with approved plant procedures.

Operating Procedure OP-39, Revision 45, Diesel Generator, Section 8.6, contains instructions for transferring fuel oil to the diesel four day tank.

Contrary to the above, a plant operation evolution was not conducted in accordance with approved plant procedures in that on December 19, 1990, at approximately 3:40 p.m., the evolution of transferring fuel oil to the Diesel Generator 2 fuel oil four day tank commenced without use of Operating Procedure OP-39.

This is a Severity Level IV violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, Carolina Power and Light Company is hereby required to submit a written statement or explanation to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include: (1) admission or denial of the violation, (2) the reason for the violation if admitted, (3) the corrective steps which have been taken and the results achieved, (4) the corrective steps which will be taken to

avoid further violations, and (5) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked or why such other action as may be proper should not be taken.

FOR THE NUCLEAR REGULATORY COMMISSION

David M. Verrelli, Chief
Reactor Projects Branch 1
Division of Reactor Projects
