I

Chilton Engineering, Inc., 519 Federal Street, Suite 300, Camden, New Jersey 08103 ("the licensee") is the holder of Byproduct Material License 29-17930-01 ("the license ") issued by the Nuclear Regulatory Commission ("the Commission"). The license authorizes the possession and use of byproduct material under certain conditions specified therein. This license was originally issued on May 31, 1978. The present expiration date of the license is May 31, 1983.

II

On February 26, 1982, the licensee's activities authorized by License 29-17930-01 and located at 519 Federal Street, Camden, New Jersey were inspected by a representative(s) of the NRC Region I Office for health and safety purposes. A second notice of payment due, together with a Notice of Violation, was sent to the licensee on June 21, 1982. A final notice of payment due was sent to the licensee on July 21, 1982. The licensee failed to respond to three invoices. Consequently, on October 6, 1982, the Chief, License Fee Management Branch, Office of Administration, issued an Order to Show Cause ("the Order"), directing the licensee to show cause why the license should not be revoked permanently. As an alternative to filing an answer, the Order provided that, if payment of the fee were made within 20 days of the date of receipt of the Order, the Director of Administration or the undersigned would issue a subsequent Order terminating the revocation proceeding. In response to the Order, the licensee followed this alternative procedure and paid the inspection fee of \$390.

III

Accordingly, in view of the payment of the inspection fee under the terms of the Order, and, pursuant to the Commission's "Rules of Practice" in 10 CFR Part 2,

IT IS HEREBY ORDERED THAT:

This proceeding is terminated.
