United States Atomic Energy Commission
 Isotopes Branch
 Division of Licensing and Regulation
 1717 H Street, N. W.
 Washington 25, D. C.

Attention: Mr. James R. Mason, Chief

Gentlemen:

Please refer to your letter of July 16, 1958 concerning our Byproduct Material License 34-1947-1.

Enclosed is a copy of our letter to Carbide and Chemicals Corporation, Oak Ridge National Laboratory, Oak Ridge, Tennessee, requesting instructions for the disposal of the radioisotope solutions on hand at our laboratory. As soon as disposal instructions are received, the necessary action will be taken to dispose of the material.

Since we do not have any need at the present time for the use of radioisotopes we would like to have our Byproduct Material License 34-1947-1 cancelled. Should we have need in the future for materials of this nature we will make application for a new license at that time.

If there is any further information which your office may require, please contact the undersigned.

Very truly yours,
