Reference: Confirmation of Action Letter Dated March 17, 1981

Gentlemen:

In accordance with the referenced letter, NFS submits the attached report of our evaluation of the Smith-Greenberg Impinger method for sampling soluble airborne uranium in the environment.

Based on the conclusions reached in this evaluation, we recommend discontinuing the air sampling in the environment using this method. Details of our evaluation are available for review during subsequent inspections.

Yours very truly,

*W. C. Manser, Jr.*
