GANNETT NEWS SERVICE

August 13, 1990

FREEDOM OF INFORMATION
ACT REQUEST

Donnie H. Grimsley, Director
Freedom of Information Division
Office of Administration
Nuclear Regulatory Commission
Washington, D.C. 20555

FOIA-90-367
Rec'd 8-15-90

Dear Mr. Grimsley:

Gannett News Service is in the process of preparing a series of articles on the generation and disposal of low level radioactive waste.

In conjunction with this, could you please provide me the names and addresses of companies and persons who dispose of low level radioactive waste at the three federally approved disposal sites in Richland, Washington, Beatty, Nevada, and Earnwell, South Carolina. In addition, I request that you provide me the generator numbers for these companies and persons.

This request is being made under the provisions of the federal Freedom of Information Act. I promise to pay reasonable search and duplication fees in connection with this request. As I am a journalist with Gannett News Service and as I believe the general public will benefit from this request, however, I ask that you waive all search and duplication fees. Also this information is of timely value.

Thank you for your help.

Sincerely,

Wendell Cochran
(703) 276-5804
