Reference: Letter from W. R. Eugnet to the Document Control Desk dated January 9, 1991

Dear Tom:

Project No. 669 - Advanced Light Water Reactor Seismic Design Subject: and Evaluation Program

As requested by NRC Staff in our January 14, 1991, meeting on seismic issues, enclosed are five copies of "Development of Seismic Hazard Input for the Advanced Light Water Reactor Seismic PRA." This report has been prepared as support documentation for Appendix A of Chapter 1 of the Requirements Document. It was listed as Reference 8 in the description of the seismic design and evaluation program submitted in the referenced letter.

If you have any questions, please call John D. Trotter at (415) 855-2786.

Sincerely,

MR Sugner
