Gentlemen:

This is in response to your letter of December 20, 1990, requesting the termination of Safeguards Amendment SG-2 to your NRC license No. SNM-1147.

Since License No. SNM-1147 has been terminated the safeguards amendment is also terminated. Accordingly, we agree that there is no longer a requirement for the physical security plan specified in the safeguards amendment.

We further agree that while you possess material under NRC License No. 4523645-01NA (Navy Radioactive Materials Permit No. 45-60921-H1NP) which meets the definition of special nuclear material of low strategic significance (10 CFR 73.2), you must follow the requirements of 10 CFR 73.67(f) and (g).

Questions should be directed to C. E. Gaskin, telephone number (301) 492-0649.

Sincerely,

Original Signed by
