Worldwide Technology
P.O. Box 6116
Cleveland, OH 44101

License No. SNM-0175 (terminated)
Docket No. 070-00198 (terminated)

Dear Mr. Flowers:

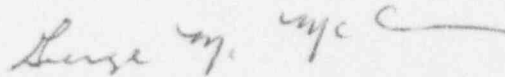

SUBJECT: NRC INSPECTION REPORT NO. 999-90003/93013(DRSS)

This refers to your January 19, 1994 letter and attached document titled "Project Plans for Remedial Action at UCAR Carbon Company, Parma, Ohio," dated December 20, 1993. This also refers to the telephone conversation between Mr. D. G. Wiedeman of this office and Vicki Vesel of your staff on February 14, 1994, regarding the plan.

After review of your proposed plan, we conclude that the plan is adequate. It is our understanding that you will start characterization and remediation approximately one week after receiving our approval. If your plan is delayed more than 30 days, please contact this office. Upon completion of the site characterization and remediation, please provide this office with a copy of your final radiation survey.

If you or your staff have any questions regarding the above, please contact me or D. G. Wiedeman of my staff at (708) 829-9500.

Sincerely,

George M. McCann, Chief
Fuel Facilities and Decommissioning
