PERFORMANCE DATA ADDENDUM
July 1, 1990 thru December 31, 1990

A) The annual random testing rate:

103%

B) The following initiatives were taken:

Administration of the contract with the NIDA approved laboratory has been transferred from the MRO to the Fitness for Duty Program Manager to improve efficiency.

C) Lessons learned:

Effective communication of Program goals to the test population is vital for cooperation and Program success.

D) Effectiveness evaluation:

The low rate of positive test results in all groups indicates that Program objectives are being met and the Program is effective.

E) Other applicable data or observations:

Access for the single licensee employee who tested positive was reinstated in accordance with 10CFR27(b)(2).

F) Data analysis and appropriate actions to correct program weaknesses:

The low rate of positive results, .36% for random testing and 0% for all other categories, indicates that the Program is being effectively implemented and personnel are responsive to it.

G) List of 10CFR26.73 Reports.

No reports meeting the criteria of 10CFR26.73 were submitted in this reporting period.
