DCS

Docket No. 50-219

Mr. John J. Barton
Vice President and Director
GPU Nuclear Corporation
Oyster Creek Nuclear Generating Station
P.O. Box 388
Forked River, New Jersey 08731

Dear Mr. Barton:

SUBJECT: NRC INSPECTION REPORT NO. 50-219/93-29

This letter transmits the report of the resident safety inspection conducted by Messrs. L. Briggs and S. Pindale for the period December 12, 1993, through January 23, 1994, at the Oyster Creek Nuclear Generating Station. The inspection consisted of document reviews, personnel interviews and observation of activities. The inspectors discussed the findings with you and members of your staff after the inspection. Inspector observations during this report period indicate that overall plant operations were conducted safely.

The enclosed report discusses a licensee-identified violation that occurred during surveillance testing which is not being cited because our review found the incident to be of low safety significance, an isolated event, and was promptly and thoroughly addressed by your staff.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

Thank you for your cooperation.

Sincerely,

A. Randolph Blough, Chief
Projects Branch No. 4
Division of Reactor Projects

Enclosure: NRC Inspection Report No. 50-219/93-29
