Gentlemen:

Subject: Inspection No. 30-02473/82-01

This refers to your letter dated October 19, 1982, in response to our letter dated October 5, 1982.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

With respect to your answer to Item B.2., you supplied additional information regarding the ring badge dose assessments for the months of September 1, 1981, through February 28, 1982, and for the month of July 1982. However, you are also required to estimate the radiation dose to the hands and fingers for the months for which you have no ring badge data. This may be done by considering workload and other factors which affect hand exposure. You should add these dose estimates into the individuals' permanent exposure history.

Your cooperation with us is appreciated.

Sincerely,
