Dear Dr. Boulette:

SUBJECT: NRC REGION I INSPECTION REPORT NO. 50-293/94-05

This letter transmits the NRC Region I inspection report for the routine, announced inspection conducted by Mr. A. Finkel of this office for the week of January 18-21, 1994, at the Pilgrim Nuclear Power Station. Mr. Finkel discussed the results with Mr. G. Basileco and other members of your staff on January 21, 1994.

The inspection was directed towards areas important to public health and safety. Areas examined in this inspection included the resolution and actions taken for open items identified previously in NRC inspection reports. Within this scope, the inspection consisted of selective examinations of design records, system evaluations, drawings, procedures, and representative records; interviews with personnel; and observations by the inspector.

Corrective actions for five previously-identified issues were found to be adequate and the items are closed. Within the scope of this inspection, no violations were identified.

Sincerely,
