Lake County Health Department
ATTN: Mike Kraynor
2293 N. Main Street
Crown Point, IN 46307

License No. 13-16474-03
Docket No. 030-17963

Gentlemen:

This refers to a telephone contact conducted on January 30, 1991.

The contact was an examination of activities conducted under your license as they relate to radiation safety and to compliance of the Commission's rules and regulations and with the conditions of your license. The contact consisted of discussions between you and Mr. Mark Mitchell of my staff.

As a result of this examination of activities, regulatory concerns were noted and are specified below. They may be evaluated at an on-site inspection at your facility in the near future.

As you discussed on the telephone, the following apparent regulatory concerns were identified:

1. You failed to notify the NRC of your change of authorized user and supervisor (License condition 11). (This is a repeat of the violation cited September 27, 1985.)

You should examine your license and NRC regulations to determine how you can correct the apparent regulatory concerns that were discussed on the telephone. Please submit to this office within 30 days of this letter, a description of actions taken or those that will be taken to correct the above mentioned regulatory concerns. In addition, we would like to highlight the following items to which licensees should pay particular attention:

- a. Maintaining awareness and control of licensed material.
- b. Proper transfers and disposal of radioactive sources.
- c. Promptly reporting losses or thefts of licensed materials.

FEB 05 1991

If you have any questions regarding this matter, you may contact Mark Mitchell at (708) 790-5726.

Sincerely,

William H. Schultz, Chief
Nuclear Materials Safety
