Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Enclosed are five (5) copies of a proposed revision to the currently approved and effective "Industrial Security Plan," AD 1808.00, for the Davis-Besse Nuclear Power Station Unit No. 1.

This revision proposes that the Davis-Besse Nuclear Power Station Unit No. 1 "Industrial Security Plan" AD 1808.00 be revised to reflect the changes attached. The attached includes the proposed changes and their safety evaluation. These changes have been determined not to decrease the effectiveness of the currently approved security plan and continues to meet the security requirements that assure the health and safety of the public. These changes are submitted for your review and approval in accordance with 10 CFR 50.54(p). The proposed implementation date for these changes is January 31, 1983.

Application is being made to withhold the enclosed information from public disclosure pursuant to 10 CFR 73.21. The attached contains Safeguards Information.

Very truly yours,
