Geneva, OH 44041

License No.: 34-19089-01
Docket No.: 030-16055

Dear Ms. Stein:

This refers to the telephone conversation between you and Mr. Wayne Slawinski of my staff on February 1, 1991, regarding arrangements for a meeting between members of our organizations. This meeting is scheduled for 10:00 a.m. (EDT), February 15, 1991, at your Geneva, Ohio office. It is our understanding that AMS attendees will include you and Messrs. Ed Sviegel and Michael Ginzel. NRC attendees will be Messrs. Slawinski and William Schultz.

As discussed in the telephone conversation, the purpose of the meeting is to discuss the status of outstanding radiological and administrative issues and their impact on resumption of licensed activities and future operations at your London Road facility. We ask that you be prepared to discuss the following issues:

- A. Status of Emergency Plan development including results of offsite emergency response agency comments on the plan.
- B. Status of ADT's fire protection evaluation of the London Road facility and your plans to implement necessary fire protection measures.
- C. Plans for installation of the new hot cell ventilation system.
- D. Cause and corrective action plans for the excessive contamination you identified adjacent to the HEPA Filter/Cell Equipment Room (January 15, 1991 report to Region III).
- E. Request for approval of Mr. Ginzel to install the hot cell ventilation system.

If you have any questions related to this meeting, please contact Mr. Slawinski of my staff at (708) 790-5618.

Sincerely,

9102130035 910208
