Gentlemen:

This letter is in response to your letter of January 9, 1991 concerning our response to Notice of Violation (November 26, 1990) from our NRC inspection of October 26 and October 27, 1990.

In our response we failed to identify a cause for the two violations stated in the notice. We feel the cause is work volume related and regular review of the NRC regulations was not done by the department supervisory staff. However, in view of the oversights that resulted time will be allotted on a regular basis for supervisory staff to review NRC regulations and make any appropriate changes in department protocols as may become necessary.

Sincerely,

Richard L. Bohy
