Dear Sir:

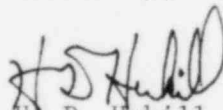

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
Generic Letter 82-12
(Nuclear Power Plant Staff Working Hours)

NRC Generic Letter 82-12, dated June 15, 1982, requests that the Commission's policy on Plant Staff work hours be incorporated into the administrative section of the TMI-1 Technical Specifications.

On June 9, 1982, we forwarded to the Commission our letter 5211-82-134, which was an update of the status of NUREG 0737 Items and response to Generic Letter 82-10. Attachment I, Item I.A.1.3.1, "Limit Overtime" advised that the TMI-1 Administrative Procedure AP-1031 had been revised to include NRC staffing guidance from NUREG 0737, and Generic Letter 82-02. These revisions also incorporate the guidelines from Generic Letter 82-12.

We will include these Revisions in a Technical Specification Change Request which will be forwarded to the Commission in January, 1983. In the meantime, our Procedure AP-1031 adequately addresses these issues and is being implemented and followed accordingly.

Sincerely,

H. D. Hukill
Director, TMI-1
