

November 2, 1982

Docket: 50-267/82-14

Public Service Company of Colorado
ATTN: O. R. Lee, Vice President
Electric Production
Post Office Box 840
Denver, Colorado 80201

Gentlemen:

We have completed our review of your September 8, 1982, letter from Mr. D. W. Warebourg responding to the open items noted in our inspection report enclosed with our letter, dated August 11, 1982.

In your response to open item No. 82-14-02(1), reference is made to a "Radiological Emergency Kit Checklist." Is it your intent to fully equip the kits with the items on the inventory lists by November 1, 1982?

We request that you provide this office with a copy of the health physics drill "surveillance procedure" described in your response to open item No. 82-14-02(4).

In reference to open item Nos. 82-14-02(5) and 82-14-03(3), please provide more information to justify the March and May 1983 implementation dates, respectively, as this appears to be an excessive amount of time to close out these items.

It is requested that you respond in writing to this office within 20 days of receipt of this letter concerning the above open items (Nos. 82-14-02(1), 82-14-02(4), 82-14-02(5), and 82-14-03(3)).
