Docket No. 50-416  
License No. NPF-29

Entergy Operations, Inc.  
ATTN: Mr. W. T. Cottle  
Vice President, Nuclear Operations  
P.O. Box 756  
Port Gibson, MS 39150

Gentlemen:

SUBJECT: NOTICE OF VIOLATION  
(NRC INSPECTION REPORT NO. 50-416/90-25)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by Johnny Mathis on November 17, 1990 to January 4, 1991. The inspection included a review of activities authorized for your Grand Gulf facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). We are concerned about the violation because of the failure to follow procedure for placing the second RWCU pump in service. The lack of attention to details by the operator led to an isolation of the system. However, we note that you are implementing both short-term and long-term corrective actions recommended by a task force formed as a result of previous findings related to "Inattention to details" events.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.
