Dear Mr. Caniano;

We corrected the violation of the regulations immediately after the inspection. We had one copy of shipping papers, license and etc. in the case. We made another copy of these documents to be placed next to the driver during transportation. We will then have a complete set of papers in both the cab of the pickup and the case when the gauge is being transported to and from jobs.

Please let us know if you need any additional information.

Sincerely,

Frank Taylor
