Dear Mr. Schultz:

This letter is a response to NRC letter dated January 4, 1991, identifying apparent regulatory concerns with License No. 34-26055-01 Docket No. 03031153.

The following regulatory concern was identified: we failed to notify the NRC of our change of the Radiation Safety Officer (License Condition III).

To correct this concern, we have sent a letter to the NRC Materials licensing section (copy attached) requesting an amendment to our license.

Please contact us if there are any further questions regarding this matter. Our contact person is Glenn Rogers at (513) 251-2730.

Sincerely,

Mike Lofton
