

JAN 25 1991

Docket Nos.: 50-206, 50-361, and 50-362

Southern California Edison Company
San Onofre Nuclear Generating Station
P. O. Box 128
San Clemente, California 92672

ATTENTION: Mr. R. W. Krieger
Station Manager

Gentlemen:

This acknowledges receipt of your letter dated December 30, 1988, by which you transmitted Revision 15B to the San Onofre Nuclear Generating Station (SONGS) Physical Security Plan (PSP).

We find the change submitted by your letter to be consistent with the provisions of 10 CFR Part 50.54(p). Accordingly, they are acceptable for inclusion into the plan.

One of changes made to your PSP deleted the words "NRC Inspection and Enforcement Photo Credential". We have no objections to this deletion, however, we understand that members of your security staff believed that this credential is no longer used. These credentials are still currently used by NRC inspectors. If you have issued instructions or have written procedures which indicate that the above credential is no longer used, this should be corrected immediately. There is no requirement that you include descriptions of NRC identification in your PSP.

The attachments to your letters are being withheld from public disclosure because they contain Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21

Sincerely,

Original signed by

James H. Reese, Chief
Safeguards, Emergency Preparedness
and Non-Power Reactor Branch
