RE: License No. 13-02249-01  
Docket No. 03004336

Dear Mr. Davis:

In compliance with 10 CFR 30.35 of the NRC regulations, our license was submitted for renewal on June 4, 1990. License approval was received on October 16, 1990.

Letter of transmittal signed by William J. Adam, indicated in part: "In order to relieve you of this responsibility, we have added License Condition 27. to your license which states that you must restrict your possession of licensed material below the minimum limits specified in 10 CFR 30.35 (d) for establishing decommissioning financial assurance." "However, you should note that all licensees, regardless of possession limits, are required to keep records relative to information which the Commission considers important to decommissioning. Therefore, we have added License Condition 28. requiring that you maintain such records as set forth in Section 30.35(g)."

Accordingly, Miles Inc., Elkhart, Indiana has been in compliance since the implementation of this regulation, and continues to be in compliance. Please correct Docket No 03004336.

Sincerely,

Kenyon J. Yoder  
Corporate Radiation Safety Officer
