ATTENTION: Dr. Thomas Murley

SUBJECT: Westinghouse AP600 Plant Design

Dear Dr. Murley:

In response to the NRC staff request during the meeting with Westinghouse on January 23, 1991, 40 copies of the revised AP600 Plant Description Report (proprietary) have been sent to Mr. Loren Donatell. These reports are intended to replace the reports sent previously. They are issued as controlled copies and will be updated periodically. Note that these reports describe the current AP600 design, which varies from the ALWR Utility Requirements Document (URD) in some places. We are working with EPRI to resolve these differences.

The Westinghouse Electric Corporation copyright notice is also attached.

This submittal contains Westinghouse proprietary information consisting of trade secrets, commercial information, or financial information which we consider privileged or confidential pursuant to 10CFR9.5(4). Therefore, it is requested that the Westinghouse proprietary information attached hereto be handled on a confidential basis and be withheld from public disclosures.

This material is for your internal use only and may be used for the purpose for which it is submitted. It should not be otherwise used, disclosed, duplicated, or disseminated, in whole or in part, to any other person or organization outside the Commission or the Office of Nuclear Reactor Regulation without the express written approval of Westinghouse. Correspondence with respect to the Application for withholding should reference AW-91-124, and should be addressed to R. P. DiPiazza, Manager of Operating Plant Licensing Support, Westinghouse Electric Corporation, P.O. Box 355, Pittsburgh, Pennsylvania 15230-0355.

William J. Johnson, Manager
Nuclear Safety Department
