DIRECTOR OF NUCLEAR REACTOR REGULATION  
ATTENTION JOHN F STOLZ CHIEF  
OPERATING REACTORS BRANCH 4  
US NUCLEAR REGULATORY COMMISSION  
WASHINGTON DC 20555

DOCKET 50-312  
RANCHO SECO NUCLEAR GENERATING STATION  
UNIT NO 1  
EMERGENCY OPERATIONS FACILITY

This letter is in response to a telephone conversation between D. G. Raasch (District) and John F. Stolz (NRC) on November 22, 1982, and provides clarification as requested.

The District's response to Generic Letter 81-10 includes the following letters:

- June 1, 1981
- August 3, 1981
- October 26, 1981
- April 23, 1982
- July 16, 1982
- August 13, 1982
- September 22, 1982

The District is making no provisions for a backup EOF. The General Office Annex located at 1826 - 61st Street is 23 miles from the Rancho Seco site, and no backup is recommended. The protection factor concept is not relevant at this distance.

The latest EOF floor plan was distributed to:

- Sacramento County Emergency Operations Division
- Amador County Office of Emergency Services
- San Joaquin County Office of Emergency Services
- State of California Office of Emergency Services
- FEMA Region IX
- NRC Region V

for review and comment. Final comments are due December 10, 1982. The District will then sit down with our A&E Consultant and establish a construction/renovation schedule. The District is unable to establish a completion date at this time.

The EOF site approval was transmitted via a November 9, 1982, letter.
