President
4990 Valenty Road, Suite D
Chubbuck, Idaho 83202

Gentlemen:

Thank you for your letter of November 11, 1982, in response to our letter and Notice of Violation dated October 25, 1982. As discussed with you during the telephone enforcement conference held on September 8, 1982, we regard the violations discovered during this inspection with great concern and indicated that we would review your response, including the improvements made in your management control, to determine if additional enforcement actions are necessary.

Based on our review of your response, we have no further questions regarding your corrective actions. We will be reviewing implementation of these actions during a future inspection to ensure they have been effective in precluding further noncompliance.

Sincerely,

John T. Collins
Regional Administrator
