Re: Demand for Information

Docket Number: 03030177
License Number: 34-00738-10

Dear Mr. Davis,

Case Western Reserve University has reviewed your Demand for Information regarding the University's compliance with the decommissioning funding requirement for material held under NRC License number 34-00738-10.

The study which the University conducted indicates that the amount of material held under this license (12,000 curies) is below the regulatory threshold of Appendix C X 10E+10 (100,000 curies), and therefore does not require submission of financial assurance.

In accordance with your Demand for Information, I am also submitting a copy of this letter to the Director, Division of Low Level Waste Management and Decommissioning, Office of Nuclear Material Safety and Safeguards, Washington D.C. 20555.

Should you require further information, I can be contacted at 368-2906.
