Gentlemen:

We have completed our review of Revision 1 of the "Shoreham Nuclear Power Station Physical Security Plan for the Protection of Special Nuclear Material of Low Strategic Significance," submitted by your letter dated July 19, 1982, which supercedes the original plan submitted by your letter dated September 1, 1981, and have determined that the revised plan meets the requirements of 10 CFR 73.67(f), with certain exceptions.

Accordingly, we are amending your License No. SNM-1857 as set forth in the enclosure. The requirements identified therein must be fully implemented by the date of fuel receipt and must be in effect whenever fresh fuel is stored on site.

Additionally, please note that we have deleted the typographical errors discussed between Mr. R. Reen of your staff and Ms. C. Rossomondo of my staff. These errors appear in Sections 1.1.3 and 1.2.3 of the plan. Please revise your copy of the plan accordingly.

We have determined that your letter of July 19, 1981 and the enclosure to this letter contains information of a type specified in 10 CFR 2.790(d). Accordingly, it is deemed to be commercial or financial information within the meaning of 10 CFR 9.5(a)(4) and shall be subject to public disclosure only in accordance with the provisions of 10 CFR 9.12.
