ProTechnics International, Inc.
ATTN: John W. Chisholm
President
14760 Memorial Drive, Suite 206
Houston, Texas 77079

Dear Mr. Chisholm:

This letter concerns our January 31, 1991, discussion of whether ProTechnics, International may work under reciprocity in NRC jurisdiction once its NRC license has been issued. Specifically, you asked whether field flood studies could be performed under an Agreement State license which authorizes the use of quantities greater than authorized by your NRC license. As I replied after discussing your question with Mr. William L. Brown, NRC Region IV Counsel, field flood studies will not be allowed under reciprocity once your NRC license has been issued. Thus, you would be limited to the uses and quantities specified in your NRC license.

Sincerely,

Original Signed By

William L. Fisher, Chief
Nuclear Materials Licensing Section
