General Electric Company
ATTN: Mr. G. E. Cunningham
Sr. Licensing Engineer
P. O. Box 460
Pleasanton, California 94566

Gentlemen:

This confirms the telephone conversations of September 20 and 21, 1982 between your Mr. G. E. Cunningham and Mr. O. F. Smith of the NRC staff, concerning the protection of unclassified safeguards information. Please refer also to your letter of December 30, 1981, pertaining to this subject, and our response thereto, dated January 13, 1982.

We have considered the circumstances surrounding the delayed schedule for shipment of special nuclear material (SNM) from your Vallecitos Nuclear Center facility and have concluded that an extension of certain provisions of our above referenced letter is appropriate. Accordingly, provisions (2) and (3) of that letter are hereby extended to December 31, 1982, or to the date when the last of the SNM in question is removed from the site, whichever comes first.

Sincerely,

L. J. Evans, Jr., Chief
Fuel Facility Safeguards
Licensing Branch
Division of Safeguards, NMSS
