General Atomic Company
 ATTN: Mr. J. W. Parker, Director
 Quality Assurance and
 Compliance Division
 P. O. Box 81608
 San Diego, CA 92138

Dear Wes:

This letter confirms our conversations of September 23 and 24, 1982 regarding submission of the revised Physical Protection Plan (other than Chapters 20 and 21).

I understand from those conversations that the plan will be submitted on the previously agreed date of September 27, 1982.

Although we expect the revised plan to be largely acceptable, we recognize the likelihood of additional work to amplify and clarify outstanding issues. We would expect to resolve these through additional revisions to the plan or through imposition of license conditions mutually agreed upon. You are advised that we are prepared to issue an order on items that remain open after mid-November, if an agreement cannot be reached by that time.

Again, let me express my appreciation for your personal interest in assuring adequate GA responses. Please contact me directly if you detect any problems developing regarding this.

Sincerely,

L. J. Evans, Jr., Chief
 Fuel Facility Safeguards
 Licensing Branch
 Division of Safeguards, NMSS
