

November 3, 1955

Mr. K. S. Fields  
General Manager  
U. S. Atomic Energy Commission  
Washington, D. C.

Dear Mr. Fields:

Subject: Pratt & Whitney  
Project Fox  
FAC-139

At the Fifteenth Meeting of the Advisory Committee on Reactor Safeguards the proposal for a site containing a critical experiment facility as described in the referenced reports was reviewed.

**RECOMMENDATION:**

The Committee recommends that this site is suitable from a hazards point of view for a critical facility of the type described.

This recommendation applies only to the site. The critical facility and critical experiments will be submitted for evaluation at some later date. The Committee wishes to emphasize that this recommendation implies nothing with regard to the suitability of this site for other critical experiments or reactors

Sincerely yours,

J. Rogers McCullough  
Chairman  
Advisory Committee on  
Reactor Safeguards
