P.O. Box 355

Dear Mr. Nardi:

This refers to Certificate of Compliance No. 5450 which has an expiration date of July 31, 1991.

Since the certificate references include several supplements, a consolidated application, complete in itself and which includes drawings and all pertinent information should be submitted. Preferably, the application should be in the format of Regulatory Guide 7.9. The sections on operating procedures, acceptance tests, and maintenance programs should be reviewed to assure they are complete and current. If revisions are necessary, the revised section should be submitted with the application for renewal. Note that the certificate of compliance may be conditioned to specifically cite the operating procedures, acceptance testing and maintenance programs. To ensure continued use of this package, the consolidated application (6 copies) should be submitted at least 30 days prior to the expiration date of the certificate.

This notice of expiration should not be construed that such notice will be provided in the future. Also, please let us know if you do not intend to request renewal of the certificate.

Sincerely,
