Gentlemen:

This refers to the inspection conducted by inspectors B. Earnest, R. Caldwell, and L. McLean of this office during the period January 23-24, 1991. The inspection included a review of activities authorized for the Comanche Peak Steam Electric Station. At the conclusion of the inspection, the findings were discussed with Mr. B. Lancaster and members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The inspection was limited in scope to recent additions and changes to the security systems and structures at your facility. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified. The inspectors made several observations during the course of the inspection, and your staff committed to perform surveillances and studies in order to gain an insight into the referenced areas. The details of these observations are documented in the enclosed inspection report.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.
