Docket No. 50-293

Boston Edison Company
ATTN: Mr. George W. Davis
Senior Vice President - Nuclear
Pilgrim Nuclear Power Station
RFD #1 Rocky Hill Road
Plymouth, Massachusetts 02360

Gentlemen:

Subject: Inspection No. 50-293/91-01

This refers to the routine safeguards inspection conducted by Messrs. T. W. Dexter and D. F. Limroth of this office on January 7-11, 1991, at Plymouth, Massachusetts, of your activities authorized by NRC License No. DPR-35 and to the discussions of our findings held by Mr. Dexter with you and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observations by the inspectors.

Within the scope of this inspection, no violations were observed. However, two areas were identified that warrant attention. One involved the use of unapproved training lesson plans and the other involved access processing of personnel. With respect to those areas, your staff indicated that permanent corrective actions, in addition to the immediate actions taken, would be forthcoming.

Portions of the enclosed inspection report contain details of your security program that have been determined to be exempt from public disclosure in accordance with 10 CFR 73.21 (Safeguards Information). Therefore, those portions will not be placed in the NRC Public Document Room and will receive limited distribution. This letter and the remainder of the inspection report will be placed in the Public Document Room in accordance with 10 CFR 2.790(a).
