Docket Nos. 50-245
50-336

Director of Nuclear Reactor Regulation
Attn: Mr. D. L. Ziemann, Chief
Operating Reactors Branch #2
Mr. R. Reid, Chief
Operating Reactors Branch #4
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Reference: (1) B. K. Grimes letter to W. G. Council dated September 12, 1978.

Gentlemen:

Millstone Nuclear Power Station, Unit Nos. 1 and 2
Site Emergency Plan

Pursuant to the Atomic Energy Act of 1954, as amended, and the rules and regulations issued thereunder, the holders of Provisional Operating License No. DPR-21 and the holders of Full-Term Operating License No. DPR-65, hereby submit the enclosed revision to Appendix G of the Millstone Unit No. 1 Final Safety Analysis Report, and Appendix 12A of the Millstone Unit No. 2 Final Safety Analysis Report. They have been designated as Amendment Nos. 37 and 45, respectively.

This amendment consists of Revision 5 of the Millstone Site Emergency Plan which has been updated to meet the intent of Regulatory Guide 1.101, the State of Connecticut Emergency Operations Plan, Annex V and to incorporate the comments expressed in Reference (1). Revision 5 and the associated procedures are in full compliance with 10CFR50, Appendix E, and have been reviewed and have not been found to constitute an unreviewed safety question. This revised Emergency Plan was implemented on November 17, 1978.

The Millstone Site Nuclear Review Board has reviewed and approved the amendments to the FSAR's and concurred in the above determination.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY

W. G. Council
