March 4, 1983

Docket Nos. 50-277

50-278

Mr. Gerald E. Gears, Project Manager  
330-B Phillips Building  
U. S. Nuclear Regulatory Commission  
7920 Norfolk Avenue  
Bethesda, M.D. 20555

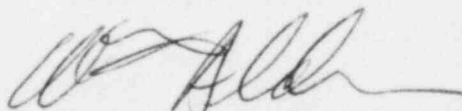

Subject: Peach Bottom License Amendment  
Application, dated December 15, 1982

Dear Mr. Gears:

Enclosed are corrected pages 186 and 187 for the December 15, 1982 application adding additional primary containment isolation valves. Page 186, as submitted in our application, corrected a typographical error by changing valve designation 5959A to 5949A (pen. no. 39B, Unit 3); however, we neglected to indicate the change with a vertical bar. The enclosed page 186 shows the vertical bar. Page 187, as submitted in our application, contains a typographical error. Valve designation MO-10-39B should be changed to MO-10-39A (pen. no. 211B, Units 2-3). The enclosed page 187 corrects this error.

We apologize for the inconvenience to you resulting from these errors.

Sincerely,

W. M. Alden  
Engineer-In-Charge  
Licensing Section  
Nuclear Generation Division

Enclosure

cc: W. C. Birely
