Director/Licensing
P.O. Box 0
Rosemont, MN 55068

Gentlemen:

This refers to your letter dated April 26, 1979, for amendment of License No. 22-13585-02G. In order for us to review your application further, we need additional information and clarification regarding the following:

1. Instructions for Installation of Gun Sights. You specified that each general licensee will receive explicit instructions pertaining to mounting the gun sight and affixing the required warning label. Please submit a copy of the instructions you will be providing to the general licensees.
2. Condition 3. of your license specifies that gun sights transferred to general licensees shall be tested for leakage and contamination immediately following installation of a sight or sights on a gun. We need to know how you will comply with this condition of your license. If you plan for general licensees to conduct the leak test, you should submit a copy of the instructions for our review that will be provided to general licensees.

Our review of your request will continue upon receipt of the above information. Please reply in duplicate and reference Control No. 99709.

Sincerely,

James A. Jones
Material Licensing Branch
