(1) waste
in CA (2) waste
leakage (3) waste
leakage (4) waste
waste in building
nuclear plants # 10

Senator Cranston
April Valley, Ca.
July-79 923 07

How many nuclear
power plants do we have
in Calif.? How much
radioactive waste is
buried here in Calif.?
How much has leaked
into the Ocean affecting
the fish we eat or water
we drink. How much
hot slag is used to build
houses, bldgs in Calif.
How much radioactive
materials are used in
school buildings?
Or cancer causing bldg.
materials asbestos ceiling
etc
How many Westinghouse
built power plants do
we have in Calif. ? or others
Do you know about
DES. Would you please

Study it and get behind -
(Support) Calif. efforts of the
DES actions groups to publicize
information and knowledge
on this to the public. I
am a DES mother. Took

DES ^{shots} (Female Hormone) when I was
28 during early pregnancy
with my third child, a
girl in 1965. The doctor
never told me about any
warnings of this causing
cancer to me and my child.
The Drug Companies & The Medical
Profession and The FDA knew
long before took this it was
cancer causing but was left
on the market. Why? I have
a 13 year old now that must
be checked for cervix cancer.
I, 10 yrs. after took the
DES shots discovered a lump in
my right breast. In 1976 I
had a mastectomy at age
38.

Have cancer and
no breast and she a
child who must worry
more than usual and
go through 6 mo. checks
for cancer of the cervix.

Am I going to live long
enough to raise this
daughter and my ^{other} ten
year old daughter now?

They have no other
relatives, Grandparents
etcetra. What happens
to them? What about
The DES still being used
in birth control pills,
sperm sperm pills - Beef
cattle so on. Please

look into and study the
DES. Thank you.
Nancy S. Borde

Please help us.

Stop giving cancer to
our children, and
stop the medical profession,
& Drug Companies: and
The farmer and ranchers
Beef.

Why must it take so long after
we know something is no good
to get it off the market?
It kills many thousands more
