

MAR 04 1983

Docket No. 50-146

Mr. James H. Elder, Chairman
Concerned Citizens for SNEC Safety
Wall Street Ext.
Saxton, Pennsylvania 16678

Dear Mr. Elder:

In a letter to Karl Abraham, dated February 17, 1983, you requested that he provide you with certain information about nuclear reactors. In turn, he asked me if I could locate a part of that information which was not available in the files at the regional offices of the Nuclear Regulatory Commission (NRC) in King of Prussia. A copy of that documentation, related to the dismantling and decommissioning of the reactor at Elk River, is enclosed for your use. I have also enclosed another copy of Regulatory Guide 1.86, "Termination of Operating Licenses for Nuclear Reactors" for which you asked.

Mr. Abraham will respond directly to you about the other issues you raised in the referenced letter to him.

I am currently the NRC licensing project manager for the Saxton Nuclear Experimental Corporation facility. If we can be of further assistance, please contact us.

Sincerely,

151

Robert E. Carter, Project Manager
Standardization & Special
Projects Branch
Division of Licensing
