References: a. License No. DPR-28 (Docket No. 50-271)
b. Letter, USNRC to VYNPC, NVY 94-47, dated April 18, 1994

Subject: Generic Letter 92-01, Revision 1, "Reactor Vessel Structural Integrity"

In Reference (b), the NRC requested Vermont Yankee to verify that the information previously provided by Vermont Yankee in response to the subject Generic Letter has been accurately entered by the NRC into the database as enclosed with Reference (b). It was requested that we notify NRC within 30 days of any inconsistencies which may be identified; if no inconsistency is identified, the NRC Staff will consider our actions related to the subject Generic Letter to be complete.

The purpose of this letter is to provide formal notification to you, as requested in Reference (b), that a number of differences have been identified between the information in the NRC database and that previously provided by Vermont Yankee in response to the subject Generic Letter. We have been in contact with the Vermont Yankee NRC/NRR Project Manager and your technical staff regarding these differences.

We are presently completing our evaluation of Reference (b) and will provide a more detailed response as soon as our evaluation efforts have been completed. Should you have any questions, please contact this office.

Sincerely,

VERMONT YANKEE NUCLEAR POWER CORPORATION
