We have had problems
with this license. (Nite-Site)

P/S. make sure it
includes condition that

distribution is not authorized.

John: When you have a moment I would
like to talk to you about Nite-Site 22-13585-03

1. They reference "for info see conditions on
"previous" license

2. They reference retired lic. -01 and refer
to lic -02 (assume they mean -2G)

Inasmuch as they now want to go from 75 to 300 millicuries B/34
and past record we might want to ask for a more complete

lic. application - This application has been
here since Sept 1980.

I am still looking for the (-02a) file
which may shed some light on
this applicant. The (-03) file seems
spotty and does not contain previous
lic (-01) data.

Gentlemen:

This refers to your application for renewal of license 22-13585-03 dated September 5, 1980 for the possession of byproduct material, promethium 147.

In order to facilitate the review of your application for the renewal of this license, the application should be submitted with clear, up-to-date information concerning your operations and facilities which involve radioactivity and without reference to previously submitted documents and information.

Your application dated September 5, 1980 makes reference to existing license conditions and states, "For further information, refer to License 22-13585-01". This is not acceptable. Furthermore, License 22-13585-01 is an expired license and therefore cannot be used as back up data for the current license renewal evaluation.

Enclosed is a copy of Regulatory Guide 10.7 to assist you in preparation of the renewal application.

Note Site (~~East Wright~~) Draft to Shirley 4/22/82

Check: ① Order records for certification the
customers are general license.

② Check for leak test results from people
who got gunsights 3 years ago.

③ How sites been found leaking?

④ How many customers sent in affidavits (%)

⑤ Can local customers be contacted to
see if labels are applied & leak test done?

⑥ Review design (Singer/Wright)?

⑦ Reaffirm liability requirement.
