Docket No. 50-312

Sacramento Municipal Utility District  
ATTN: Mr. John J. Mattimoe  
General Manager  
6201 S Street  
P.O. Box 15830  
Sacramento, California 95813

Gentlemen:

We have received a copy of your application dated January 25, 1983, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain Technical Specification (TS) changes related to recent title changes at the Rancho Seco Nuclear Generating Station. Fees pursuant to 10 CFR 170.22 were not remitted with your application since you determined that the application was exempt from fees as provided by Footnote 2 of 10 CFR 170.22 because the request has no safety or environmental significance, is administrative in nature, and is issued for the convenience of the Commission.

When applications are requested by the NRC to simplify or clarify the license or TS for the convenience of the NRC and have minor safety significance, they are exempted from fees under the provision of Footnote 2 to 10 CFR 170.22. To qualify for this exemption, licensees must meet all of the footnote criteria. It is our understanding that your application was not requested by the NRC nor is it for NRC's convenience, but rather is to incorporate title changes that have occurred for several positions at the Rancho Seco Station. On this basis, it is subject to fees. As a result of their preliminary review of the application, the ONRR staff agrees with your determination that a Class II fee is appropriate for these administrative changes. Therefore, it is requested that your company remit the sum of \$1,200 to this office. If the ONRR staff's final review of your application reveals that the requested fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
