MAY 19 1994

Mr. Joseph J. Holonich
 Chief, Uranium Recovery Branch
 Division of Low-Level Waste
 Management and Decommissioning
 Office of Nuclear Materials Safety
 and Safeguards
 Mail Stop 5E-4 OWFN
 U.S. Nuclear Regulatory Commission
 Washington, DC 20555

Dear Mr. Holonich:

Enclosed are six copies (controlled copies 1 through 6) of the Final Long-Term Surveillance Plan (LTSP) for the Lowman, Idaho, Uranium Mill Tailings Remedial Action (UMTRA) site. Also included for your convenience are six copies of the associated Comment and Response Document. This submittal reflects changes made to the September 1993 Lowman, Idaho, LTSP in response to Nuclear Regulatory Commission (NRC) comments dated January 11, 1994.

There are three items which appear in attachment 6 that are not available for this submittal: letters from the Boise County Sheriff's Department; the U.S. Geology Survey, National Earthquake Information Center; and the National Weather Service Office in Boise responding to the agency notification request sent out by the UMTRA Project Office. Efforts are underway to obtain these documents and they will be submitted to the NRC when they are received by this office.

If you have any questions regarding this transmittal, please feel free to contact me at (505) 845-5637.

Sincerely,

L. A. Woodworth
 Site Manager
 Uranium Mill Tailings Remedial Action
 Project Office
