MEMORANDUM FOR: Albert Lookabaugh, John Benton, Spence Perry, FEMA
FROM: Geary S. Mizuno
OELD
SUBJECT: COMANCHE PEAK HEARINGS

50-445

As I informed you on Wednesday, March 9, there will be another hearing session for CPSES in Fort Worth, Texas, scheduled for April 4-8, 1983 at the Fort Worth Metro Center Hotel. The Board indicated in a conference call with the parties that they wish to have the FEMA Interim Findings for CPSES entered into the record. The Board stated that it wished to inquire into "new information" contained in the Interim Findings. The Board also stated that there were two areas addressed in FEMA's testimony which the Board wished to further inquire:

- (1) the availability of, and alternatives to, the EBS system.
- (2) the nature of the advisory information that the County Judges would receive prior to making a decision whether to undertake protective actions.

According to the Board, they do not expect pre-filed written direct testimony to be filed, but that an oral direct would be satisfactory.

In accordance with our telephone conversation on Friday, March 11, I will be meeting with you at FEMA's regional office in Denton, Texas, during March 23 to 25, 1983. Please feel free to contact me if you have any questions at FTS 492-8505.

Geary S. Mizuno
Counsel for NRC Staff
