MEMORANDUM FOR: Robert B. Minogue, Director  
Office of Nuclear Regulatory Research

FROM: Victor Stello, Jr.  
Deputy Executive Director  
Regional Operations and Generic Requirements

SUBJECT: REGULATORY GUIDE 1.147

The enclosed Regulatory Guide 1.147 was sent to my office for concurrence with the note from D. Ross stating that he did not believe it needed to be reviewed by the CRGR. Neither I nor the CRGR has reviewed the guide to determine whether its use would impose new generic requirements on licensees. I am returning the guide for your action to decide whether it should be reviewed by the CRGR before printing and distribution.

Please advise your staff not to place me on concurrence for Regulatory Guides. Instead you should decide whether the Guides should be reviewed by CRGR, following the guidelines in my memo of November 18, 1981.
